ROSADITO

Terremoto is hosting for the fifth year in a row an auction in Mexico City. This event represents our most important fundraising exercise as the proceeds will contribute to continue our mission of promoting the artistic and curatorial practices of the Americas and develop a more equitable artistic scene on the continent.

Terremoto offers, through its authorized donee in Mexico, tax-deductible receipts to members registered in the country.

If you are physically present in Mexico City

The auction will take place on April 10, 2024 at Barcelona 26 (Colonia Juárez, Mexico City), doors open at 20:30.

For those who wish to view the lots on display prior to the event, private walkthroughs of the exhibition will be scheduled by appointment on April 9 and 10 from 10:00 a.m. through 5:00 p.m. You will be able to register for the auction, whether by attending the live event or by bidding remotely by phone or submitting absentee bids.

To book an appointment, kindly send an email to Verónica Guerrero (veronica@terremoto.mx) specifying the date and time of your convenience.

TERREMOTO

If you wish to bid remotely by phone or submit absentee bids

If you are unable to attend the event in Mexico City, you may either secure your participation by sending an email to Verónica Guerrero (veronica@terremoto.mx) specifying the lots that you are interested in bidding for. Once your registration is complete, our team will be in touch to register the lots you wish to bid for and whether you prefer to make predetermined absentee bids or participate as a live bidder during the auction by phone or on WhatsApp.

The live bidding service will be available on WhatsApp on the day of the auction (8:30 - 11:00 p.m., Mexico City time), which will require you to be online at said time to secure your live bids. If one or more of your bids is successful, you will be sent an email within 24 hours following the live auction to convene on payment and shipping details.

The final call for completing your registration is Tuesday April 9, 2023 at 4:00 p.m. (Mexico City time).

TERREMOTO

ABOUT TERREMOTO

Terremoto is a critical platform to interweave the artistic and curatorial practices marginalized by the modern-colonial heritage in the hemisphere. It has grown to become the leading independent and bilingual network and medium on contemporary art in our continent and the Caribbean.

Recurring to broad variety of editorial voices since 2014, the print and online magazine was distributed worldwide and made available to over 30,000 readers, with 24 issues published before its final iteration in November 2022.

We recently transformed the print magazine into an ambitious nomadic residency for Latin American artists across the continent.

Since 2013 in Mexico City, Terremoto has become a not-for-profit Civil Association and has diversified its activities, audiences and outreach channels that encompass an archive-based exhibition program (La Postal) artist-in-residence initiatives, special editions, public programs among other projects across the Americas.

TERREMOTO

GUEST PROJECT: TEMBLORES PUBLICACIONES

At Terremoto, we are committed to nurturing emerging talent within the artistic community. Each year, we extend a warm invitation to a promising younger project, providing them with a platform to exhibit and sell their works. This initiative not only enriches our auction with fresh perspectives and innovative pieces but also serves as an opportunity for these emerging projects to raise funds for their future endeavors.

ABOUT TEMBLORES

Starting from situated thought in the Americas, Temblores Publicaciones is a publishing house that seeks to enable editorial spaces that activate critical dialogues between the work of contemporary artists and that of professionals within the field of curatorship and research in the arts of the region.

We think of the book as a tool that expands the artistic practice; as a support where object and content stimulate radical imaginations around other art histories. We have a growing international distribution network that allows us to take the discussions generated from printed matter to other latitudes, at the time that we foster relationships between institutions, art spaces, galleries and specialized bookstores.

TERREMOTO

ABOUT, PROYECTOS PÚBLICOS

“We are the history that surrounds us,
we are the history we make”

We are in search of empty spaces that have historical echoes in their walls, that are astonishing in their architecture.

We look for venues that were once great to inspire infinite probabilities. Once found, our mission is to respect its concrete face, resurrect its essence and provoke possibilities to live, to create, to share, to be inspired, to grow, to celebrate, to meet.

We are Proyectos Públicos, a collective moved by the dream of fusing society and culture, as we believe in the transformative power that stems from this union: project and prospect, room and guest, experience and spectator, art and wonder.

The doors are open. Welcome to Proyectos Públicos.
